

Health Services Corps

Getting Organized

You're Invited to Join the Corps

The Health Services staff is putting together some online sessions to touch base with other HSOs across CAP. We want to provide a forum for discussing pending program changes, sharing new initiatives for increasing communication and support across the HS Corps, and a chance to network with your fellows in real time.

Sessions will be for an hour in the evening on **25 Sep** and **9 Oct**, and will (hopefully) be recorded and available for those who cannot participate in synchronously. **8:30PM Eastern, 5:30PM Pacific**

Sessions will have the same agenda, so come to either or both if you care to.
